MARGARET RIVER WINES

# Our Story

Rosa Brook was originally home to a small number of group settlement farmers who pioneered the dairy industry in Margaret River in the 1930's.

Rosabrook Wines was one of the first wine producing pioneers of the Margaret River wine region.

Owned by Calneggia Family Vineyards, the winemaking philosophy, carefully guided by the Calneggia family and winemaker Severine Logan, is to create elegant, fruit driven wines.

# Our Vineyards

The Rosabrook Wines vineyards are located in both the north and south of the Margaret River wine region, located 280km south of Perth.

Orientated to the north and north-east provides shelter from the prevailing south westerly and sometimes destructive winds of the region.

The spiritual home of the Rosabrook Wines is the Rosabrook Estate vineyard located in the hamlet of Rosa Brook some 14 kilometres east of the Margaret River township.

The Rosabrook Estate vineyard is over 30 years old and produces intensely flavoured fruit.

# Our Winemaker

Rosabrook Wines' Chief Winemaker is the highly talented Severine Logan. Severine was raised in the Loire Valley, France and studied Oenology at Toulouse University. She spent 5 years working across multiple regions in France and moved to Australia in 1995 to start her winemaking career.

After climbing the ranks, Severine became Winemaker for both Houghton and Sandalford Wines in Western Australia before spending 6 years as Winemaker for Rosemount Estates in the Hunter Valley. She joined Watershed Premium Wines as their Head Winemaker in 2007 where she spent 12 years developing their formidable reputation and creating award-winning wines.

Severine is a highly respected winemaker and has judged on the French and Australian wine show circuit. She joined Calneggia Family Vineyards in late 2019 and now plays a very important part in growing their brands whilst building her expertise as a winemaker.

MARGARET RIVER WINES

# Our Core Values

- To produce exceptional premium wines which reflect the diversity and range of the Margaret River wine region, providing our customers with a true reflection of the regional wine styles.
- To adopt a minimalist winemaking approach in the winery in order to produce wine styles that are in keeping with the ‘expression’ of the region and wines that over deliver in terms of quality and value.
- To nurture the vines to produce superior fruit quality in support of our belief that great wine starts in the vineyard.
- To interact with our customers to ensure that our wines remain relevant and in keeping with their expectations.
- To utilise, wherever possible, practices and materials that lower the impact that the production of our wines has on our environment and those of our customers.
- To practice fairness and openness when dealing with our customers, co-workers and suppliers.
