

CRITTENDEN ESTATE®

# WINE CENTRE

Crittenden Estate is one of the oldest family owned and operated wineries on the Mornington Peninsula. Established in 1982, we are passionate about creating quality cool climate wines that represent our region as well as our commitment to minimal input viticulture. Our custom-built Wine Centre offers a unique way for those who enjoy wine to experience our selection of more than 25 different styles or varieties on offer. This new format provides seated, structured tastings where knowledgeable staff are on hand to guide visitors through carefully prepared 'flights' or 'brackets' of wine. A range of alternative and traditional varieties can be sampled in a format that is innovative and makes tasting wine an experience in itself.
