

a2 Gentle Gold™

Premium follow-on formula

FROM 6 MONTHS

a2 Gentle Gold™ Premium follow-on formula is specially formulated for babies from 6 months +, to complement the introduction of solids.

PRODUCT INFORMATION

a2 Gentle Gold™ Premium follow-on formula contains:

- ✓ No artificial colours
- ✓ No artificial flavours
- ✓ No preservatives
- ✓ No artificial growth hormones or antibiotics

True a2™ is our promise of exceptional quality. With over 20 years of pioneering experience and expertise, our unique True a2™ ecosystem is designed to ensure that the finest a2™ products reach you in premium quality condition.

INGREDIENTS

Milk solids [demineralised whey powder (**milk**), whole **milk** powder, lactose (**milk**)], vegetable oils [high oleic sunflower, corn, canola, coconut], galacto-oligosaccharide [GOS] (**milk**), minerals [phosphorus, potassium, sodium, magnesium, calcium, chloride, iron, zinc, selenium, copper, iodine, manganese] dried omega-6 and omega-3 oils [arachidonic acid oil, **fish** oil (tuna)], emulsifier (**soy** lecithin), vitamins [C, E, A, D, B12, K, B6, riboflavin, niacin, pantothenic acid, biotin, folic acid, thiamin], L-methionine, inositol, taurine, L-histidine, L-tryptophan, choline, L-carnitine.

Contains milk, fish, soy.

THE BENEFITS OF BREASTFEEDING

At The a2 Milk Company, we believe breastfeeding is best to provide the ideal nutrition for babies, in addition to providing other important health benefits. We also understand that breastfeeding may not be an option for everyone.

To support you on your feeding journey we recommend that you seek advice from your health care professional. As a first step, good nutrition is important during pregnancy, post birth to support recovery, and whilst breastfeeding.

Introducing infant formula either partially or exclusively may reduce breastmilk supply which can be difficult to re-establish. The social and financial impacts, such as the potential cost of providing formula until your baby is 12 months old, should be considered when exploring feeding options.

To ensure safe nutrition for your baby when using any infant formula, always prepare and use as per the preparation instructions as improper use may affect the health of your baby.

NUTRITION INFORMATION

	Average quantity per 100mL prepared formula [^]
Energy	307kJ
Protein	1.5g
Whey protein (60%)	0.92g
Casein protein (40%)	0.61g
A2-type beta-casein	0.19g
Fat, total	3.7g
Omega-3	67mg
α-Linolenic acid (ALA)	60mg
Docosahexaenoic acid (DHA)	7mg
Omega-6	545mg
Linoleic Acid	535mg
Arachidonic acid (ARA)	10mg
Carbohydrate	8.5g
Vitamins	
Vitamin A	61µg-RE
Vitamin B ₆	46µg
Vitamin B ₁₂	0.4µg
Vitamin C	12mg
Vitamin D	1µg
Vitamin E	0.9mg α-TE
Vitamin K	5.2µg
Biotin	3.5µg
Folate	10.5µg
Niacin (B ₃)	0.55mg
Pantothenic acid	415µg
Riboflavin (B ₂)	130µg
Thiamin (B ₁)	71µg
Minerals	
Calcium	80mg
Copper	60µg
Iodine	14µg
Iron	0.99mg
Magnesium	7.4mg
Manganese	7.5µg
Phosphorus	50mg
Zinc	0.55mg
Selenium	1.6µg
Chloride	52mg
Potassium	80mg
Sodium	27mg
Other	
Choline	11mg
Inositol	5.4mg
L-Carnitine	1.3mg
Taurine	5.4mg
Prebiotic Galacto-oligosaccharide (GOS)	410mg
