Action on gender equality

Gender pay gaps

The gender pay gap is the difference in average or median earnings between women and men. It is a measure of how we value the contribution of women and men in the workforce. The gender pay gap is not to be confused with women and men being paid the same for the same, or comparable, job – this is equal pay. Equal pay for equal work is a legal requirement in Australia. However, illegal instances of unequal pay can still be one of the many drivers of the gender pay gap. Closing the gender pay gap is important for Australia's economic future and reflects our aspiration to be an equal and fair society for all.

Employee support for parents and carers

Paid parental leave

Parental leave policies are designed to support and protect working parents around the time of childbirth or adoption of a child and when children are young. Some employers offer universally available parental leave policies, offering equal parental leave for all parents, others offer with a distinction between 'primary' and 'secondary' carers. It's important that the policy is available to all parents, irrespective of gender, recognising the equally important role of all parents in caregiving.
