

FLUENT EXPERT SERVICES

Moving to the Fluent UX Framework

Order Management Experience

For Clients

February 2022

The Moving to the Fluent UX Framework package is designed to assist Clients in the analysis and planning to adopt the latest framework.

Moving to the Fluent UX Framework

The Moving to the UX

Framework Package provides Clients with access to Fluent Commerce's Expert Services team to guide them on the adoption of Fluent's UX Framework.

This package allows Clients to easily move from Admin Console to Fluent OMS and also from Service Point to Fluent Store, if in use.

WHAT'S INCLUDED?

Consulting Support

- Analysis of existing Admin Console and Service Point configurations
- Analysis assessment walk through with Client and/or Partner
- Best practise guidance in developing for the Fluent UX Framework
- Assistance in:
 - Adoption of the Fluent OMS and Fluent Store web applications
 - Guidance around customising the web applications to a client's business requirements

Deliverables

- Report with findings and actionable recommendations
- Migrated Fluent OMS manifest (Sandbox only)
 - Provides the partner with a jump start to the adoption

KEY BENEFITS

- Quicker adoption of latest Fluent offering
- Alignment to Best Practises
- Accelerate adoption timeline
- Allow for enhanced and flexible UI/UX, with lower maintenance costs

COSTS

Effort is up to 3 days of consulting work[^] involving:

- Service Point - 1 day
- Admin Console: - 2 days

[^] Please note this effort does not include any customisation of UI components and is only considering a like-for-like adoption
