WINEMAKERS COMMENTS

Viticulture

Fruit is sourced from neighboring properties in the northern Yallingup sub-region of Margaret River. Direct input from Forester's viticulturist ensures well balanced canopies and crops are grown for the ripe style desired. The 2021 vintage was a cool and mild year for white grapes in Margaret River, allowing plenty of time during February and March to ripen the fruit to our specification.

Winemaking

Modern white wine making techniques are employed in the production of the Lifestyle Chardonnay, with temperature control considered critical from the moment the fruit reaches the winery. The fruit is destemmed and crushed, then must chilled and pressed off skins in a very short space of time. The lightly clarified juice is then racked to barrels and stainless steel tanks for fermentation with a mix of wild and added yeast. Both tanks and barrels are stirred on yeast lees during their maturation period.

Storage/Bottling

Bottled under screwcap into a burgundy bottle.
