---

Rounded and fleshy palate of apple and pear. Bright acidity with a dry finish.

## Growing Conditions

A wet June recharged soil moisture & bud burst was slightly earlier and early season growth was strong. Significant rainfall events throughout until Christmas minimised the need for irrigation during the early stages of the growing season. Fortunately conditions dried in January through until harvest, reducing disease pressure & stabilizing ripening conditions. A spike in warm weather at the end of February hastened ripening and leading to a slightly earlier vintage.

## Harvest

March 5 2024

## Bottling

October 7 2024

## Winemaking

Pressed quickly to avoid skin contact and colour pickup. Cool stainless ferment to dry.

## Aging

Cool stainless ferment to dry, aged four months on lees with some bâtonnage.

## Nose

Fragrant fruit blossom, green apple and pear

## Palate

Rounded and fleshy palate of apple and pear. Bright acidity with a dry finish.

## Appearance

Pale gold

## Food Pairing

A groups of friends and a cheese board having a catchup in the sun.
