

2024 POLISH HILL RIVER RIESLING

POLISH HILL RIVER & SINGLE VINEYARD SELECTION

VARIETY	100% Riesling			
FRUIT SOURCE	Polish Hill River in the Clare Valley			
VINTAGE	<p>The season began relatively dry in August, September, and October, compared to the previous two growing seasons, resulting in low disease pressure early on. Flowering at Watervale started in late October to early November, approximately two weeks ahead of the 10-year average and at least a month earlier than the 2023 vintage. Rainfall was slightly above average in December and early January but quickly dried up. January and February were warm to hot, with nine consecutive days above 33 degrees in early March, accelerating harvest. Minimal to no rain during harvest kept disease pressure low, with no interruptions.</p>
