### Honoring the Courage and Spirit of

**Exploration:** Long ago, fearless explorers braved vast oceans, reaching unknown lands and opening new chapters for Margaret River and Frankland River in Western Australia. Their adventurous spirit, deep respect for nature, and love for discovery are forever woven into the very soil of these regions.

Margaret River, with its warm Mediterranean climate and mineral-rich soils, produces wines known for their elegance and balance. Frankland River, with its cool climate and ancient granite soils, crafts expressive varietals, especially Riesling and Shiraz, rich in depth and complexity.

The Explorers series seamlessly blends these regional treasures with the craftsmanship of 3 Oceans Winery. With decades of winemaking expertise, every step—from grape selection to aging—is driven by a pursuit of excellence.

More than just wine, The Explorers is a tribute to pioneers and an invitation to modern adventurers. Each sip is a journey through nature and flavor, celebrating the spirit of exploration. Cheers to discovery!

### The Explorers

#### Single Vineyard Chardonnay 2024

Hand-picked single vineyard Gingin Chardonnay grapes were pressed directly into French oak barriques, 30% new, and wild fermented until dry and matured in barrel for a further 9 months. Aromas of lightly toasted and minerally new oak underlay the citrus and white nectarine fruit characters of the Chardonnay. The flavours flow onto the palate and are balanced by saline acidity, with depth of fruit weight and length indicating this wine will reward careful cellaring for many years.

#### The Explorers Single Vineyard Shiraz 2022

Shiraz grapes sourced from an exceptional dry grown vineyard just south of the Porongorups in the locality of Kalgan River, have power, depth, weight and perfume typical of the best in the Great Southern region. Ripe plummy fruit, charcuterie, sweet spice and nuances of smoky oak and vanilla pod greet the senses. Luscious deep plummy fruit, plush velvety tannins, beautiful oak integration, and seriously good length indicate this wine will reward careful cellaring for at least 10 years.

### The Explorers

#### Single Vineyard Cabernet Sauvignon 2022

Lifted aromas of bright cassis, sage and perfumed violets, flow onto a powerful and structured palate, gently supported by a cradle of finely grained French oak, 40% new. Great length and depth, this wine will age gracefully for many years.
