THE ESSENCE OF CLARE VALLEY

VINIFICATION

Picked in the early morning when the temperature is at its coolest. Crushing and pressing of the chilled fruit occurred immediately with the aim of limiting any skin contact. After cold settling the clean racked juice was fermented in temperature controlled stainless steel tanks. Chilled immediately after fermentation to retain and protect the varietal aromas to remain pristine.

SEASON AND SOURCE

Hailing from our Slate Creek vineyard in the iconic Watervale district of Clare Valley. First planted in 1974, the site features terra rossa over limestone soils, which provides expressive flavour and character to the Riesling fruit.
