

Morlet of Margaret River (Margaret River)

www.morletwines.com.au

We offer fine organic Margaret River wines that we have grown and produced for your drinking pleasure.

Our wine flavour and characters come from the gravelly loam soils in our single vineyard situated at the Willyabrup Brook head water in the 'Golden Triangle' west of Cowaramup.

Attention to soil health with certified organic practices, which avoid intrusive chemical inputs, enhances the quality flavours you appreciate. With elegant winemaking that has minimal additions, complemented by refined French or American oak, our aim is to intrigue and delight your palate.

Our wine is truly hand built from the ground up, no industrial processes, no compromises, just an enthusiastic dedication to providing unique, sophisticated, hand-crafted wines you'll love, and are fun to enjoy!

Akimbo Pink Zin Pet Nat 2024

"We've been pleasantly surprised how the Pink Zin has stood up over time – it has developed nicely in the bottle so we are hanging onto the few that are left to see how far it will go." - NIGEL MORLET

Urban Prof Chardonnay 2023

This small batch Margaret River chardonnay displays a lifted bouquet of nectarines, grapefruit and brioche dough. Wild fermentation delivers a light flinty note, while fine French oak maturation and extended time on lees provide complexity and mid palate richness to the wine, retaining precision and impressive length. Produced in extremely small quantities, this wine is a reflection of both site and season.

8th Deadly Zin 2015

Violets and lifted raspberry fruit on the nose with hints of sour plum and stewed forest fruit. Aniseed and/or Chinese 5 spice with some toasty oak notes. The palate is rich and lush with dark forest fruits, some Christmas cake and raisins tied together with a bright acidity and framed by toasty, slightly vanillin oak.
