

FISHBONE BLUE MERLOT

2022 GEOGRAPHE WA

Fishbone is a boutique family run and owned vineyard purchased by the Sorgiovanni family in 1999. Located in the world-renowned Margaret River wine region in Wilyabrup, the property features gentle sloping topography bounded by the Wilyabrup Brook in the centre of Margaret River's 'golden triangle'. The 165-acre property, which was originally a dairy farm, includes some traditional varieties such as Cabernet and Chardonnay, and some lesser known alternatives such as Tempranillo, Malbec, Vermentino and Pinot Noir.

Tasting Notes

Deep crimson red rim to core. Spiced mulberries, sweet tobacco. Dry, ripe red fruits, styling Merlot with good balance and persistent length.

Winemaking

A fine Merlot with ripe red fruits and spices on the nose and flow on the palate to a long finish. The natural acids and soft tannins, provides a very approachable style.

Viticultural Notes

The 2022 ripening period started perfectly with weeks of uninterrupted sunny days that helped all white varieties to be harvested at optimum ripeness.
