

BYRON & HAROLD
ESTATE

Founded by two
lovers of wine

BYRONANDHAROLD.COM.AU

BYRON & HAROLD

One with the surname Byron, the other with the given name Harold; two gentlemen, really, in the true sense of the word, but with a secret admiration for the 19th century English poet who in his day was regarded as 'mad, bad and dangerous to know.'

With more than a lifetime of combined experience in the Australian wine trade, Paul Byron and Harold (Ralph) Dunning seek out those parcels of wine that they believe Australian wine lovers really want to drink. Wines with flavour, wines that are true to their variety – wines with provenance.

We have the ideal environment here in Great Southern to craft truly sensational wines. Our deep, rich soils, combined with the cooling Southern Ocean breezes allow for a long, even ripening period in the vineyard.

This slower ripening, in turn, results in fruit that has more intense flavours, more acidity and better balance which combine to make wines of flavour,

intensity and elegance, and which beautifully match a wide range of foods.

This is what it is all about – warm days with cool nights that deliver to us wines that express unique regional and varietal characters with finesse, elegance and definition.

Since the first significant planting of vines in the early 1960s, the south west of Western Australia has grown to become regarded as potentially one of the great wine-producing areas of the world.

The principal sources of grapes for Byron & Harold are the established regions of Margaret River and Great Southern. They both enjoy growing conditions similar to that of Bordeaux, and are internationally regarded as premium cool climate destinations that produce elegant, distinctive wines with finesse and power.

BYRONANDHAROLD.COM.AU

BYRON & HAROLD

THE Partners

The Partners label was evolved to reflect the commitment and insight both Paul Byron and Harold (Ralph) Dunning could bring to the winemaking process. They have worked with wine for the best part of 65 years combined, and have the knowledge experience and relationships to be able to source the very best parcels of fruit from the most dedicated growers in the Great Southern region of Western Australia.

These wines are crafted with the understanding of the great importance of true partnerships – the eternal partnerships of soil,

site and climate. Of vine, sun and rain. Of grower and winemaker working together to create a true reflection of aspect, variety and place. This is how truly great wines are created.

'The Partners' wines are our flagship wines ~ they represent the very best wines we make from any given vintage. They are the epitome of our vineyard selection and wine making abilities.

BYRON & HAROLD

THE Protocol

For more than 5,000 years the world of quality wine has been directed by a set of guidelines or rules that have been passed down from generation to generation. Whilst we at Byron & Harold recognise and understand those past parameters, we have determined to enhance these principles and create our own new protocols for the lively and exciting future of one of Australia's most important and respected sources of premium quality wine – Margaret River.

Rather than blindly 'obeying' what went before we are establishing our own set of guiding principles that cover every facet of farming grapes – variety, soil type, temperature, rainfall,

sunshine hours, seasonal variation, pruning style, bud counts, vintage timing, yield and so very much more. These protocols are the product of observation, experience and outcome. Of knowing and understanding our own environment and recognising the inherent potential of the land we farm. We are taking advantage of the history of the region – however, with new eyes, fresh hands and boundless vigour we are embarking on an energetic and bright future of quality winemaking.

These Protocol wines are the result of many years of 'hands on' experience in both the vineyard and cellar. We hope you agree that they have served us well.

BYRON & HAROLD

THE Companions

There is nothing on this earth more to be prized than true friendship." – Thomas Aquinas

For more than 25 years, the founders of Byron & Harold, Paul Byron and Harold (Ralph) Dunning have been strong friends and close business colleagues in the Australian wine industry. Between them they have a lifetime of wine industry understanding and experience. The lessons they have learnt have all been brought to bear on this small Companions portfolio of wines. They are wines of real merit that reflect a true sense of provenance - that of the world renowned Margaret River.

These wines celebrate the friendship, support and wise counsel exchanged when on the common journey of producing wines of great distinction.

RAGS TO RICHES

At the conclusion of World War I, the Western Australia Government attracted migrants to Western Australia to establish farms in the Margaret River region. By 1922, more than 100 settlers had arrived. This was the early stage of the Margaret River region, where land clearing, logging, and farm establishment was the order of the day. From humble beginnings in the 1890s, where itinerate farmers scratched a living out of the native bushland, to today's world famous wine growing region, Margaret River has seen a true 'Rags to Riches' story. Today, the Margaret River wine region is known for its outstanding viticulture, wine production, and international tourism, attracting an estimated 500,000 visitors annually.

Margaret River is the leading wine region of Western Australia, with a respect and reputation that is

globally recognised. Occupying the westerly coastal strip of south-western Australia, Margaret River enjoys a Mediterranean / maritime climate with an average rainfall of around 1100mm. This is classic winter rains country which enjoys all the benefits of its proximity to the Indian Ocean. The region enjoys good winter rains, warm summer days, long sunshine hours, and the benefit of cooling sea breezes during the ripening period.

The combination of maritime climate and deep volcanic soils leads to a consistently high quality of fruit with intense flavours. The principal grape varieties in the region are evenly split between Cabernet Sauvignon, Chardonnay, Merlot and Sauvignon Blanc. This is an area that is renowned for powerful and flavoursome Cabernet Sauvignon, and deep, rich Chardonnays.

BYRONANDHAROLD.COM.AU

Our Rose & Thorns portfolio of wines are named after the founding partners of Byron & Harold – three thorny fellows of good humour and strong vinous heritage and Rose, our loquacious and good natured foil who keeps us all focused on producing stunning wines in the glass. Wine growing and wine making are difficult pursuits even in the best seasons and we aim to honour the wonder of Great Southern in Western Australia by creating wines with a sense of flavour reflective of the purity of our surrounds. The Great Southern features dramatic forested cliffs pounded by the wild Southern Ocean intermingled with cosy coves and calm bays. Rolling pastoral landscapes and majestic mountain ranges are home to a rich variety of picturesque vineyards in which fine wines are carefully crafted.

It's internationally renowned reputation is that of a world class maritime wine growing climate that produces impeccable Cabernet Sauvignon wines.

In recent years Shiraz from the Great Southern has also proven itself an excellent performer – both with wine lovers in general and national wine shows. Shiraz joins the region stalwart Cabernet Sauvignon in rounding out the Rose & Thorns offering.

These wines all play to the real underlying strength of Western Australia – the fact that these regions experience a Mediterranean climate that delivers steady and defined seasons. These are characterised by generous winter rainfall, moderate spring temperatures and a long, dry growing season throughout summer, to the end of harvest in autumn. The climate is perfect for premium table wine growing; cool with dry summers and wet winters.

Chapter and Verse

The full Chapter and Verse of all we have learned and experienced within the world of wine is expressed in these wines. From the identification of vineyard site and the selection of individual parcels of fruit, through to the hands on winemaking of each batch. We believe in the old winemakers' adage that 'wines are made in the vineyard' and, as such, are committed to seeking out the very best vineyard sites so that we can deliver on our promise to make wines of flavour, texture and structure.

With half a lifetime devoted to the discovery of the hidden gems within the wonderful world of wine, these wines are a distillation of our experience and a result of that quest. Sourced from the prime vineyard sites of Great Southern in West Australia. These wines started life in the vineyards of

some of the world's most committed artisan vigneron. Our winemaker Kate Morgan has, in turn, crafted wines that are a true expression of both variety and place. Wines that are an exciting reflection of the vineyards from which they came. Powerful wines with elegance, flavour and style. wine growing; cool with dry summers and wet winters.

Our home is in the South West corner of Western Australia – in Great Southern and Margaret River. This is where majestic gum trees soar, where sunshine hours are maximised, where the sea breezes cool the land and where wine reputations have been built.

Our Wheelabout wines are crafted from family owned, signature vineyards that produce exceptional fruit. The 'Hay View' vineyard is centred in the heart of Mt Barker and is surrounded by the oldest vineyards in the district – renowned for producing the highest quality Riesling and Shiraz wines in the region. Our 'Karri Country' Pinot Noir is named after the spectacular old growth Karri forests that are native to this region.

This vineyard is centred in the prestigious, new, cool climate region

of Southern Forests and has already built a strong reputation for producing wonderful, long lived and elegant red table wines. The 'Spencer Road' vineyard is our Chardonnay jewel. Set in the foothills of the Porongurups, this family owned, dry grown vineyard is ideal for Chardonnay - one of the most consistent quality vineyards in the region. These individual sites ensure we produce wines of energy, style, elegance and provenance.

Great wine depends on being able to grow sensational fruit. Sensational fruit is all about the perfect coming together of seasons to avoid the fierce extremes of nature, without compromising flowering, fruit set and the all important long, cool, even ripening period.

Our Circle of Life label unites four trees in one. Like the four seasons themselves, they have individual characters yet are inextricably linked. The four intertwined trees represent the cycle of the seasons, the real life cycle of a vineyard. All the Circle of Life wines have been made from grapes grown in Western Australia.

These Circle of Life 'Four Seasons' wines shout out about place and origin.

They are true to variety and honest to region and terroir. They simply scream Western Australia.

secret vineyard

Byron & Harold was established in 2012 by Paul Byron and Harold (Ralph) Dunning to produce a focused range of high quality, provenance based table wines. In only our second full year of winemaking, much respected wine reviewer James Halliday awarded Byron & Harold a 5 Star Rating for 2015 and named us as one of his Top 10 New Wineries for 2015.

Since then, Halliday renewed our status as a 5 Star winery for 2016, and upgraded our rating to a 5 Red Star winery for 2017. With half a lifetime devoted to the discovery of the hidden gems within the wonderful world of wine, our wines are a distillation of our experience and a result of that quest. Sourced from the prime vineyard sites of Great Southern in Western Australia.

Working hard, playing hard, and making some of the worlds most outstanding wines - that's what our Vignerons and Winemakers do. The Great Southern wine region of Western Australia is built for this, with its cool temperate climate strongly influenced by the Southern Ocean. This produces elegant, structured wines, with maximum retention of varietal aromas and flavours to build complexity.

Working with the environment is of the utmost importance to Rogues and Rascals, and the diligent efforts of our team are evident in the high quality wines we produce.

Our Great Southern and Western Australia Rogues & Rascals range consists of Shiraz, Cabernet Sauvignon and Chardonnay - three hero varietals of the region.

Our famed Vignerons and Winemakers are the Rogues and Rascals of the Great Southern wine region of Western Australia, playing hard but working harder.

BYRON & HAROLD 'WANDERING LANE'

The Wandering Lane wine story is all about a family with a huge passion for both the land and the premium wines they produce from that land.

In 1995, prominent Western Australian Cardiologist, Dr Geoffrey Lane, purchased a picturesque parcel of virgin farmland in Wandering, Western Australia to establish a premium table wine vineyard. Since then, Geoffrey, together with his wife Christine and three sons, Andrew, Peter and Jonathan has developed the property from the ground up, hand planting almost 30 acres of vines, comprising a range of varieties including Shiraz, Chardonnay, Semillon, and Zinfandel. The family has also lovingly

restored the family homestead that now boasts magnificent views over the entire estate and surrounding National Park.

Wandering is located in Western Australia's 'Peel' wine region, approximately 1.5 hours south of Perth. Its warm, even summers, cold winter conditions and extremely deep fertile soils, make it an ideal wine growing region. The Wandering Lane estate epitomises the essence of boutique vineyard life-style where 'work hard, play hard' has always been the family motto. Anyone who visits the property can immediately see the love and attention to detail that has gone into every aspect of the venture.

The three tiers of our Wandering Lane range of table wines represent the diversity that comes from the Great Southern wine region, and cover the various wants and needs of today's wine consumer.

BYRON & HAROLD 'ALTITUDO'

Our home is in the South West corner of Western Australia – in Great Southern and Margaret River. This is where majestic gum trees soar, where sunshine hours are maximised, where the sea breezes cool the land and where wine reputations have been built.

Our three tiers of Altitude wines are crafted from family owned, signature vineyards that produce exceptional fruit. Our 'Altitude' range showcases the very best fruit, carefully crafted into the very best wine. Sourced from the Margaret River and Great Southern, only the most premium fruit is chosen to be used, meaning production is limited. Our winemaker practices minimal intervention in order to let the inherent quality of the fruit shine through, using the best quality oak

to nurture and enhance the natural flavours of the wine.

Our Western Australia range is all about celebrating the best of the West. Blended from carefully selected parcels of fruit from across Western Australia, these wines are a loving tribute to the diversity of the region, from our rolling hills and valleys and endless sandy beaches, to our bountiful forests and hot, dry plains. Taking premium parcels of fruit from a variety of locations across W.A. ensures that our wines are perfectly balanced, beautifully pronounced, and entirely individual.

TROVE ESTATE

Trove Estate is true to its name – a valuable discovery of delightful things; a true treasure trove in the premium wine sense. Our emblem is that of the acorn; the seed of the magnificent oak tree. One of the oldest sayings in the world is ‘From little things, big things grow’ and this is epitomised by the tiny oak acorn that grows into the splendid and usually huge mature oak tree. It is a symbol of strength and perseverance; of tenacity and endurance; of majesty and beauty.

This is how we define our wines – from the brooding strength of our ‘The Laurels’ wines through to the structure, length and perseverance of our Forest Grand collection and finally to the boldness and sheer drinkability of our Secret Squirrel varietals. All of these wines deliver on their focused style and the sheer enjoyment of drinking well.

These wines are primarily sourced from the fertile premium wine growing regions of Western Australia – with Margaret River the viticultural ‘jewel’ in our crown. The temperate maritime

climate with its long, cool, even ripening period is ideal for premium table wine production. The vineyards from which we produce our wines focus on the varieties that Margaret River specialises in – Cabernet Sauvignon, Chardonnay, Shiraz and Sauvignon Blanc Semillon blends.

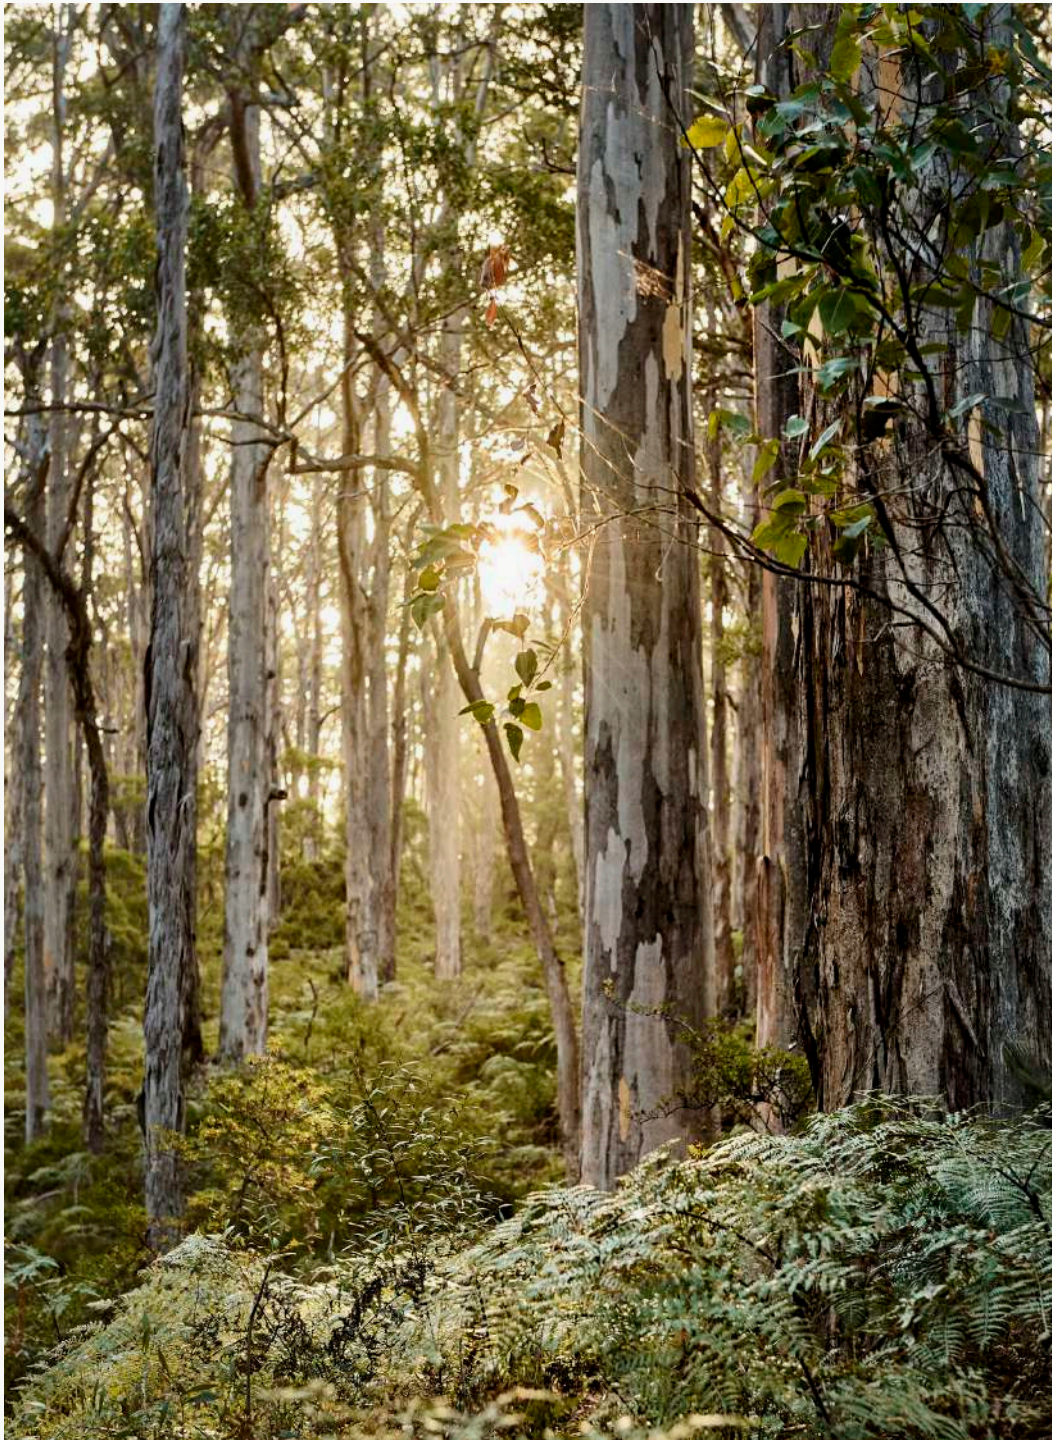

The vast majority of Western Australia’s premium vineyards experience a significant maritime influence. To the north, in and around Margaret River, their major influence is the Indian Ocean, which reliably delivers both winter rains and on-shore cooling afternoon sea breezes during the ripening months. To the south lies Western Australia’s coolest grape growing area Great Southern; where the major influence is that of the Southern Ocean which delivers slightly less rainfall than the north with marginally lower average temperatures. It is a much older wine grape growing region than Margaret River with its first commercial vine plantings harking back to 1930..

DOMINION EIGHT

Dominion 8 is a wine brand that is quintessentially all about Australia. From 1788 through to 1901 Australia was a fully fledged Dominion of the United Kingdom. A Dominion of 8 States and Territories – all of which today contribute to the rich tapestry and diversity of Australian premium table wine.

Dominion 8 Wines are true to their namesake. They are all about supremacy, authority and controlling the controllables. They are wines that reflect strongly their individual sense of place and the mastery of their winemaking. They tell their own story with a distinctive focus on strength, structure, depth of flavour and all round drinkability.

Our wines are primarily sourced from the fertile premium wine growing regions of Western Australia – with Margaret River the viticultural 'jewel' in our crown.

The final product is a true representation of place and

varietal flavour. This is a luscious wine with strong fruit structure and soft, round mouth feel. The surprise is in the length, and clean finish. Just like the leaves turning to gold throughout the vineyard, these wines are sure to delight - share with friends today.
