

# SUNSETS

## Sunsets

---

### Winemakers

Mark Thwaites & Stuart Leece

### Brief History

Sunsets Natural Rosé is an exciting new brand that makes use of organic farming and indigenous yeasts to produce a vegan-friendly, skin-contact wine. The organically grown grapes have lent their colour and texture to this down-to-earth drop that you can enjoy anywhere. It is a minimal intervention natural wine that was left to its own devices with wild fermentation and matured on its own skins and lees. A good sunset can stop you in your tracks, and so can this wine.

Created by Stuart Leece, Sunsets was created to meet the growing interest in wines.

Sunsets strives to present certified organic wines at the right price. The label design is a reproduction of an original artwork by designer Madeline McMahon.

## Region

Loxton, South Australia (The Riverlands region)

## Key Selling Points

- Sunsets Natural Rosé is skin contact, organic, and vegan friendly. It's a minimal intervention natural wine that was left to its own devices with wild fermentation and matured on its own lees.
- Sunsets is committed to a cleaner future, farming and working organically, whilst reducing our carbon footprint.

## The Wines

### 2022 Sunsets Natural Rosé

Region	The Riverlands, South Australia
Type	Rosé (Cabernet Sauvignon and Shiraz)
Vintage	2022
Tasting Notes	Pale pink hue with aromas of lemon rind and grapefruit on the nose. The palate is furry and fresh with tropical fruit with a zesty citrusy finish, to keep you coming back for more.
Pairings	This wine is just as good at home on the veranda as it is at the dining table. Enjoy with appetizer dishes such as olives, hummus, melon and prosciutto. It pairs equally well with mains of shellfish, scallops, and oysters as it does with grilled chicken.
Alcohol	12.9%
