# WE ARE CRAFT ALLIANCE GLOBAL

At Craft Alliance Global, we have been involved with and invested in the wine industry for over 20 years.

We understand the producers, consumers, and the nuances within the industry. We get what makes the industry tick and what excites people.

We choose to partner with producers with provenance, who have a story and demonstrate passion and integrity. And they

choose to partner with us, because of our passion for their product and brand.

Our producers know the retailers, restaurateurs and publicans we keep good company with, are worth aligning with.

Your customers demand exceptional wine. We sell exceptional wine.

We are Craft Alliance.

# BREAK FREE

LO-FI AND MINIMAL INTERVENTION.  
TASTE THE GRAPES AS NATURE  
INTENDED.

Swan Valley, Margaret River,  
Great Southern and South  
Australia

Break Free natural wines are born from a desire to showcase grapes with no intervention, to hero a true expression of their essence.

Break Free wines centre around appreciating a grape's heritage and flavour.

"Vin Nat" or "Natural Wine" is not a style, a taste or a smell. It doesn't mean a cloudy, liquid brimming with volatility, neither does it represent a star-bright, manicured creation that feels polished to perfection. It could be either of those things, or neither.

What most people understand by "natural wine" is a wine "with nothing added."

The term "natural wine" signifies to consumers, retailers and other interested parties that the wine was made with the minimum possible intervention in both vineyard and cellar.

It is indicative of an overarching philosophy or set of ideals that we and the growers we work with adhere to: to let nature rather than technology take center stage.

What this means in practice is that farming will adhere (at minimum) to organic or biodynamic principles (so absolutely no synthetic inputs to the vineyard) and the fermentation will be spontaneous, without any corrections or additions at any stage. It will be unfiltered and unfined, with either very little or no added sulphites.

# CLAIRAULT STREICKER

FAMILY OWNED GROWER  
AND WINE PRODUCER. VINES  
ESTABLISHED 1976

Margaret River  
Western Australia

Clairault Streicker is a family-owned wine producer and grower situated in Margaret River, on the picturesque south-west coast of Western Australia. They oversee four unique sites across three sub-regions in Margaret River – Yallingup, Wilyabrup, and Karridale.

In Wilyabrup, their historic Ironstone Vineyard yields exceptional single-vineyard Cabernet Sauvignon and Chardonnay, while the original Clairault Vineyards in the North, boasting vines dating back to 1976, contribute various varietals and soil characteristics to their range. Additionally, the Clairault Vineyard

hosts a signature cellar door and vineyard kitchen.

At their Bridgeland Vineyard in Karridale, the cooler climate and extended growing season produce top-quality aromatic whites, including the award-winning Streicker Syrah.

At Clairault Streicker we believe that winemaking begins in the vineyard. With abundant water catchments, beautiful undulating landscapes, naturally biodiverse bushland, and soil that is exceptionally suited to premium viticultural use, our four vineyards are well-situated to produce fruit of uncommon quality.

As caretakers of four diverse vineyards in the Margaret River region, we are proud to be taking steps towards ensuring our natural resources are protected for generations to come. Our four vineyards are fully certified with Sustainable Winegrowing Australia. Since 1976, Clairault has been a pioneer in winemaking in Margaret River. Their wines, overseen by the esteemed local winemaker Bruce Dukes, embody an authentic and classic style that sets the standard for the Margaret River region.

"True to form, this is in the richer, riper spectrum from fruit-to-winemaking inputs. Yet everything is well-knitted and complete. Stone fruit, grapefruit, and lemon zest with creamy, cashew-like lees bolster the palate as does the slinky, attractive oak. The lemon-saline flavour and talc-like texture of the acidity are a bonus that corrals all that flavour."

# DREAM BIRD WINES

LIGHT HEARTED WINES  
CRAFTED FROM SCRUPULOUSLY  
SOURCED FRUIT.

Geographe, Great Southern  
& Margaret River  
Western Australia

Dream Bird Wines are full of texture, thoughtful, and best shared with good company.

Hatched out of an opportunity to create something of her own, Dream Bird Wines came to life in 2015 when Kym Carr made good on a promise she made – to live her best life.

Dream Bird Wines are crafted from scrupulously sourced South West Fruit.

Generally preferencing vines in the Geographe and Margaret River Wine Regions, Kym Carr works closely with her close-knit clan of growers to hand-pick parcels of fruit each vintage.

Her roots in viticulture provide a keen eye for quality, expert understanding of soils and sub-climates, and the vine nous needed to navigate the playground of South West grapes at her fingertips.

From Ferguson Valley Malbec to Wilyabrup Chenin Blanc, and just about everything in between -the artistry and capability to source each wine variety from its own perfect pocket of Western Australia, is a tribute to Kym's commitment and command.

This diversity in fruit, and relentless desire to source quality, has built an incredibly thoughtful and expressive portfolio of Dream Bird Wines over the years.

There is a fine line between finding the best fruit, and a keen desire to keep the Dream Bird Wines as local to Dunsborough as possible. There is also a warm reliability that comes from regular growers – and an exciting tingling of the unknown from a new block.

Each vintage, when walking this tightrope of competing factors, Kym seems to time and time again, strike a dazzling balance between consistency and experimentation.

# FISHBONE WINES

SUSTAINABLE WINEGROWING  
HALLIDAY WINE COMPANION 2023 4.5 STAR WINERY  
JIMMY WATSON WINNER 2010

Wilyabrup  
Western Australia

The Sorgiovanni family have a long history in agriculture from as early as 1928, and in 1999 the family wine business was established. The first vintage included fruit from multiply regions and the world-renowned Margaret River Region. After an extensive search, Kevin & his wife Joyce saw great potential in the Wilyabrup property, with its gently sloping topography bounded by the Wilyabrup Brook and right in the centre of Margaret River's 'golden triangle'.

The 165-acre property, which was originally a dairy farm, required extensive work including new fences throughout and creation of a large spring-fed dam. The small original vineyard was renovated,

and new plantings were also undertaken to bring the total acres under vines to 22.5. This includes some traditional varieties such as Cabernet and Chardonnay, and some lesser known alternatives such as Tempranillo, Malbec, Vermentino and Pinot Noir.

Planning for the creation of a cellar door and restaurant began immediately and the Fishbone venue opened in December 2015. Being a father to four daughters, Kevin wanted to create a welcoming destination, with a fresh menu that suited shared dining.

"I wanted to create a place where people can enjoy our Fishbone wines in a relaxed environment,

and I wanted to offer something that Margaret River hadn't seen before."

The Fishbone Wines restaurant is now known for its Japanese inspired menu paired with the award winning wines produced under the Fishbone Black and Blue labels. The restaurant can seat up to 150 people and overlooks the vineyard & farm's paddocks, complete with Kevin's beloved cattle, all with a north-easterly aspect which keeps the terrace sunny in winter and protected in summer.

# FRAZER WOODS

DEDICATED SPARKLING  
WINE PRODUCER. MÉTHODE  
TRADITIONNELLE

Margaret River  
Western Australia

The original sparkling wine producer in Margaret River, John Frazer of Frazer Woods has been devoted to making wines from the region using méthode traditionnelle since the early 1990's. He has become one of Margaret River's most iconic sparkling wine producers, and the Frazer Woods name is synonymous with crafting wines of exceptional quality.

John was enjoying a quiet tippie at the local watering-hole on a Friday evening in the early 1980's, when he heard of a property for sale in Willyabrup. 40km southwest of his beer mat and lying between the forest and the massive expanse of Indian Ocean, this piece of land piqued an interest in John that was only increased by further enquiry.

Never ones to miss an opportunity,

John and his wife Jan Woods purchased the property at an auction at the Vasse Hotel on 14 December 1985. What would become Frazer Woods was mostly bushland, plus one large paddock and a shack with no electricity. But John and Jan recognised in it something they could grow, nurture and encourage into life. It had potential.

The ambition has always been to produce wines with a fine balance of fruit and complexity, whilst championing the Margaret River region. Crafted from local Chardonnay, Pinot Noir and Shiraz, John makes his premium La Cache & Frazer Woods wines using méthode traditionnelle. Deep inside the quiet walls of the winery, the wine goes through secondary fermentation in bottle and embarks

on a long period of ageing sur lie - an all-important process that is a hallmark of John's winemaking.

They have worked exceptionally hard since those early days, building the winery and their reputation, while also raising their family. More than a quarter of a century later, with the next generation of his sons Tom and Nick now working alongside their parents, this is a truly family-owned and run operation. John and Jan continue to innovate and invest in state of the art equipment for the winery, however with his background as an electrician, John is also never afraid of improvisation! Their passion and hope is that the business will continue on for many years to come, with plans for an eco-friendly cellar door already in the pipeline.

# HARVEY RIVER ESTATE

SUSTAINABLE WINEGROWING  
HALLIDAY WINE COMPANION 2023  
4 STAR WINERY

Geographe  
Western Australia

Harvey River Estate is owned and operated by the Sorgiovanni family. The family have a long and significant history within the south-west agricultural industry. In 1928 Kevin's father emigrated from Italy and began farming on the banks of the Harvey River.

The Sorgiovanni orchards evolved into a standalone business and Harvey Fresh went on to become one of Western Australia's biggest milk and juice processors. While working in the family business Kevin continued to run cattle and operate vineyards in the area.

The winery business progressed from vineyards into wine production under the Harvey River

Estate label in 1999. The first commercial vintage was produced in 2000 and the winery went on to be awarded the Jimmy Watson award for its 2009 Joseph River Estate Cabernet Sauvignon.

With almost 50 acres under vine, planted to Chardonnay, Shiraz and Cabernet Sauvignon, these vineyards are some of the largest in the local area. Being to the northern zone of Geographe, the Harvey vineyards are the first to be harvested in the region, starting with the Chardonnay, followed by Shiraz and then Cabernet Sauvignon.

Winemaker, Stuart Pierce, strives to "make wines people want

to drink!" Stuart is very hands on in the vineyard and winery, ensuring wines are varietally expressive and typical of the region. His preference is for minimal intervention – to achieve this Stuart works very closely with the viticultural team to monitor fruit quality and maintain optimum vineyard conditions. During his long tenure with the business, many of Stuart's wines have received high accolades, including the prestigious Jimmy Watson Memorial Trophy in 2010.

# JILYARA WINES

Margaret River  
Western Australia

ESTATE GROWN  
CERTIFIED MEMBERS OF SUSTAINABLE  
WINEGROWING AUSTRALIA

The wine that time built.

Jilyara is a rather magical blend of factors. A pristine pocket of Wilyabrup, destined for fine wine making. A meticulous hands-on vineyard manager. A free range fun loving family. And an abundance of buzzing bees.

In 1995 the family sentiment was let's give this a go. The vineyard was planted, and the seeds of a future in wine were sewn.

From their deep roots in grape growing, in 2018 the Cotterell-Bergstrom family birthed their wine label Jilyara - a dedication to pure, detailed, and expressive wines from the Margaret River Wine Region in Western Australia.

The vineyard's name Jilyara is derived from djilyaro, meaning

bees in the local indigenous Noongar language.

The equilibrium of the bush and the vineyard is a poetic narrative which underpins the natural beauty of the vineyard. Jilyara observes the six Noongar seasons to drive pruning, wire lifting, grazing and picking; Birak, Bunuru, Djeran, Makuru, Djilba and Kambarang.

The immaculate symmetry of the vineyard is an ode to its well-considered planting and Craig Cotterell, the perfectionist. The hand squished snails, individually plucked leaves, regenerative farming approaches, and eager eye for detail don't go unnoticed.

Winemaker Kate Morgan joined Jilyara in 2018 and has a natural affinity to Wilyabrup after spending nearly 10 years working with Fraser

Gallop Estate. Drawing on her extensive local and international experience, Kate crafts wines of the highest quality; respecting the fruit and allowing the wine to express the terroir of the vineyard.

Celebrated as a finalist for both Young Gun Winemaker of the Year and Gourmet Traveller Young Winemaker of the Year, Kate's career which spans Australia, the United Kingdom, USA, and Portugal can be described as diverse, brilliant, and eminent.

Jilyara produces three distinct wine collections: Heath Road, Williams' Block and Honeycomb Corner.

# LA KOOKI

HALLIDAY WINE COMPANION  
WINEMAKER OF THE YEAR  
2023 - GLENN GOODALL

Margaret River  
Western Australia

Eminently drinkable. Local at heart. Born out of opportunity. Full of personality. La Kooki was born in 2017. Founded on the pillars of opportunity, locality and personality.

A parcel of amazing fruit from the Margaret River region landed in the laps of Mr and Mrs Kooki. This was the serendipitous beginning of their Kooki adventure; a dream they had for years, to create something together.

With more than 50 years of wine industry experience between them, the duo share a bulging cavern

of knowledge, expertise and experience. La Kooki is their space to bend rules, harness creativity, and express personality.

Their deep roots and exceptional connections in the South West and Great Southern wine regions of Western Australia means they are at the top of many growers' lists when it comes to selling off a couple of tonnes of fruit. Mr and Mrs Kooki find fruit of opportunity. Handling small batches the Kooki's work closely with their growers, managing vines in many of the blocks they source fruit to get the best from them.

Experimental, joyful and simplistic. The approach to winemaking is fuss-free, fear-free and exhilarating. Both technical experts at the craft, Mr and Mrs Kooki bend the rules of traditional winemaking when it comes to their label, and dare to be different in their approach to processing. The result? Eminently drinkable wines, that are a little bit Kooki.

# LENTON BRAE

ESTABLISHED 1982  
PREMIUM WILYABRUP WINES

Margaret River  
Western Australia

Established in 1982, Lenton Brae is a family-owned winery nestled in the hills of Wilyabrup, just north of Margaret River. As one of the region's founding wineries, our legacy spans over four decades and continues to be a cornerstone of the Margaret River winemaking scene. Our story is a blend of heritage, innovation and a deep connection to the land that shapes our award-winning wines.

Ever evolving, our collection proudly showcases Margaret River at its best - bright Chardonnays and timeless, hand-crafted Cabernet Sauvignons, alongside

the 38th consecutive vintage of our award-winning Semillon Sauvignon Blanc. Whether you enjoy our wines at our recently rejuvenated cellar door, a restaurant or tucked under your arm for a special occasion, rest assured you're in good hands.

Lenton Brae is home to a unique selection of vines not found anywhere else in the Margaret River region.

With 19 varietal clones, each with its own unique characteristics, our wines are a testament to our dedication to producing complex

and individual flavours. We have made significant investments in our vineyard to ensure a future of our exceptional wines.

Each variety showcases the impact of our site's location: the free-draining soils, Mediterranean climate, and coastal influence. Our heritage-driven wines are unique and distinctively represent the Margaret River region, a world-renowned wine destination.

# MARRI WOOD PARK

DEMETER CERTIFIED  
BIODYNAMIC VINEYARD  
NO CHEMICALS NO PESTICIDES

Yallingup  
Western Australia

Marri Wood Park is a boutique family run and owned, Demeter certified biodynamic vineyard. Established 1992 in Yallingup, Western Australia, located on Caves Road, a stone throw from Smiths Beach.

Their biodynamic philosophy utilises sustainable, chemical free practices.

Applying the timing and movement of celestial objects to predicate pruning, live animal fertilising, and picking; complementing

their natural and introduced bio-diversity as an ecologically beneficial approach to farming.

Sixteen acres and ten-thousand vines comprising cabernet sauvignon, sauvignon blanc, chenin blanc, semillon and a terroir of sandy gravelly loam on limestone bedrock. No irrigation; made possible by the dewy, cooling breeze which rolls off the Southern Indian Ocean in conjunction with gentle north facing slopes, undulating

topography and well-established roots of their 28-year-old vines.

The result is hardy vines that produce high quality, robust and delicious grapes. The berries are hand-picked and sorted and then fermented in an array of fermenters (including clay amphoras, French and Austrian oak barrels) to produce the highest quality wine exemplifying the Margaret River region's fine viticultural qualities.

# RICCA TERRA VITNERS

2020 HALLIDAY WINE  
COMPANION - 10 BEST NEW  
WINERIES

Riverland  
South Australia

Ricca Terra. Wines forged from a changing climate, sourced from rich earth in land of River.

Nestled in South Australia's Riverland region, Ricca Terra is a trailblazer in the Australian wine industry, recognised for its innovative approach to viticulture and a deep-rooted commitment to sustainability.

Founded by Ashley and Holly Ratcliff in 2003, Ricca Terra began with a vision to revitalise the Riverland region of South Australia by focusing on Mediterranean grape varieties that thrive in the region's warm climate.

Their considered approach to the environment, wine quality and diversification, make it one of the most diverse and exciting wineries in Australia.

Ashely and Holly's mission was to break away from the convention of bulk wine production of the region and demonstrate that the Riverland could produce premium, world-class wines.

This vision led to the planting of lesser-known, climate-resilient Mediterranean wine varieties such as Fiano, Vermentino, and Nero d'Avola.

Under their watchful eyes, the impressive portfolio of alternative grape varieties from Italy, Spain and Portugal has been steadily evolving over the past 20 years – with more than 40 varieties now established over 10 vineyard sites.

A nationally certified Sustainable Winegrowing Australia winery, Ricca Terra's vineyard management has a keen focus on minimising the

environmental footprint of wine productions through saving limited resources like water, minimising fuel and power use, and protecting natural flora and fauna.

With a focus on hand-crafted, small-batch wines that express the unique terroir of the Riverland, Ricca Terra has gained recognition for its innovative blends and single varietal wines. The winery's ethos of sustainability, combined with its creative, boundary-pushing winemaking, has earned it accolades both locally and internationally.

Ricca Terra represents a new chapter for Riverland wines where quality, sustainability, and bold innovation are at the forefront.

James Halliday,  
Halliday Wine  
Companion on Ricca  
Terra Vitners

"Much is changing in South Australia's Riverland. Now there's an exciting new edge, with several growers ignoring the status quo to change their viticulture practices...but it is the Ricca Terra Farms vineyard that has caused a sensation, providing outstanding fruit for a series of exciting new wine brands".

# SOUTH BY SOUTH WEST

SHORTLISTED HALLIDAY WINE COMPANION  
DARK HORSE WINERY OF THE YEAR

Margaret River  
Western Australia

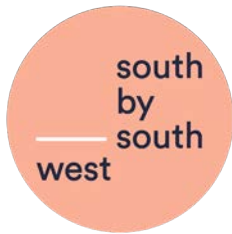

South by South West is a small-batch artisan winemaker based in the Margaret River wine region of Western Australia. They craft wines of excellence and difference that combine respect for the land, with innovative viticultural practices, and both traditional and contemporary winemaking techniques. They aim to excite and inspire people to enjoy and respect the terroir of the south west through contemporary interpretations that result in balanced, honest wines.

In addition to tending to their own organically farmed Wallcliffe vineyard they also purchase fruit from a loyal network of pioneering growers. It's important to them that they can explain the origins of their wine and why they have created each style, and the story behind each wine.

Each wine is given the opportunity to develop its own personality in a small batch where it receives the right amount of attention; personality that is founded on the fruit, and realised through the way

it is produced, bottled and labelled. In keeping with the traditional aspects of winemaking, their style is focused on minimal intervention to showcase regions, varietals, and vineyards in their rightful form.

Their mission is to produce simple wines using great fruit and minimal intervention, to demonstrate the complex characteristics and values that best represent the south west.

Halliday Wine  
Companion, Tasted

Hunter Valley  
New South Wales

Our vines were planted back in the mid-1990's, where our focus was Semillon, shiraz, and cabernet sauvignon. More recently, we've planted Touriga Nacional and Mataro which will be very soon ready for special release.

Established in 1998, we have been working tirelessly to showcase the Hunter Valley's unique terroir and heritage vines. To this day, we continue to be recognised as one of the finest, premium quality wine producers of the region.

Sweetwater Estate wines are exclusively sourced from the premium fruit grown on the Sweetwater Estate property. Located just 55 minutes north-east of Newcastle, and just 10 minutes from Cessnock, in the Lower Hunter Valley region of New South Wales, Australia.

# SWEETWATER

Halliday Wine  
Companion, Tasted  
by James Halliday  
  
2021 Shiraz  
Cabernet  
  
95 Points

"Shiraz (64%) picked on 2 Feb '21, cabernet (36%) picked 10 days later, vinified and matured separately. This ticks all the boxes, and does so with generosity of luscious black cherry and plum fruits. I doubt I would pick its Hunter Valley origin if served blind, which is not a veiled criticism of this wine."

# TRAIT WINES

SINGLE VINEYARD, HAND PICKED  
FRUIT, FROM LOW YIELDING  
30 YEAR OLD VINES

Margaret River  
Western Australia

Trait Wines is a cross-continental love story, leading two people from very different parts of the world to salvage an extraordinary old vineyard in Margaret River. It's a story of perseverance, fortitude & family.

Theo Truys (pronounced 'traits') & Clare Trythall's upbringings were physically & culturally worlds apart. From the wilds of Lesotho in Africa to the colourful life of a British expat in Asia, the duo's lives spanned the globe before their meeting in Western Australia in 2013, he working as a vineyard manager & she as an emergency doctor.

Six years, a wedding, a baby and a wonderfully scruffy dog later, Theo chanced upon a rare opportunity: to assume management of a Margaret River vineyard – one he had worked on early in his time in Australia, and that had left

an indelible impact. Due to its low yields & 'un-machine-able' conditions, it was in danger of abandonment. The thought of this would not leave Theo alone. The sloping site - with vines close-planted more than three decades ago - was producing ever-dwindling yields...but the fruit concentration & the quality was near-on perfection. The cost of running this singular vineyard was almost lunacy. The temptation was too good to refuse.

In 2019, Theo and Clare undertook their first year as fully-fledged independent vigneron, with vintage, a tough season of pruning and Theo grafting a quarter of the vineyard to Chardonnay. They juggled time with their young family and their 'day jobs' alongside the Trait vineyard to make it work, knowing that the precious site

needed hand tending year-round, all the while seeing glimpses of its magnificence.

The "X" that marks all of the Trait bottles is a Truys family symbol signifying ownership, which was hand- applied to luggage and personal effects. Theo's family used this symbol on travels throughout Central Africa in the mid 20th Century. He still owns antique trunks belonging to his great-grandfather that bear this mark.

The wines speak of character, love and the support of family across generations and continents, capturing the glory of the exceptional terroir and vineyard in a bottle.

Halliday Wine  
Companion, Tasted  
By Jane Faulkner

2021 Trait  
Chardonnay

96 Points

"While oak is making more of an impact here – the wine is in barrel for 11 months (one-third new), adding a slippery texture and lots of woody spices, the fruit handles it. It's also the long line of acidity that pulls all the flavours into line and keeps this thrillingly good. Classy stuff."

# WALBURRA ESTATE

22 YEAR OLD VINES NESTLED  
DEEP IN THE PREMIUM WILYABRUP  
REGION.

Margaret River  
Western Australia

Tucked away in the rolling landscapes of Wilyabrup, Margaret River, Walburra Farm is more than just a vineyard—it is a family legacy built on passion, sustainability, and a profound respect for the land. Established in 2006, this boutique, family-run farm has nurtured its Houghton clone Cabernet Sauvignon vines with care, ensuring that every vintage reflects the unique character of its surroundings. At Walburra Farm, winemaking is not just a craft; it is a way of life that honours the unique landscape that is the Margaret River.

From the beginning, Walburra Farm has been guided by a philosophy

of natural viticulture, fostering biodiversity and maintaining ecological balance. The vineyard operates with a commitment to sustainable, chemical-free practices wherever possible, allowing the vines to thrive in harmony with the land. This dedication to responsible farming enhances the quality of the fruit, ensuring that each bottle tells a story of the soil, the climate, and the season in which it was grown.

Winemaking at Walburra Farm is an exercise in restraint and respect. The grapes are always hand-harvested and whole-bunch pressed before beginning an 18-month maturation in 30% new

French oak barriques. Minimal intervention in the cellar allows the purity of the fruit to shine, producing a wine that is both vibrant and refined, with seamless integration of oak and structure.

These bottles are more than just wine—it is the culmination of years of dedication, a deep connection to the land, and the artistry of winemaking. With each bottle, we invite you to experience the story of our vineyard, our philosophy, and our unwavering pursuit of excellence.

Winepilot,  
Tasted By Jeni Port  
2022 Cabernet  
Sauvignon  
93 Points

"Immediately, resolutely, displays an air of class. There's an upfront purity of Cabernet Sauvignon in intense aromas of crushed herbs, blackberry, cassis, spice. It's a trademark Margaret River character captured well by the viticulturist and amplified by the winemaker. The palate is tight and focused with sturdy tannins holding court."
