

FISHBONE BLUE RUBY ROSE

2023 GEOGRAPHE WA

Fishbone is a boutique family run and owned vineyard purchased by the Sorgiovanni family in 1999. Located in the world-renowned Margaret River wine region in Wilyabrup, the property features gentle sloping topography bounded by the Wilyabrup Brook in the centre of Margaret River's 'golden triangle'. The 165-acre property, which was originally a dairy farm, includes some traditional varieties such as Cabernet and Chardonnay, and some lesser known alternatives such as Tempranillo, Malbec, Vermentino and Pinot Noir.

Tasting Notes

Vibrant pink core to the rim. Fragrant raspberries, rose petal and honeydew melon on the nose. This dry style of Rose is delicate in structure and fruity in taste, best enjoyed served at cool to room temperatures.

Winemaking

Made predominantly from Shiraz with a small addition of Gewurtztraminer, 7% of the volume was fermented and matured in seasoned oak over six months to broaden the complexity.

Viticultural Notes

We were truly blessed with some of the best weather conditions one could hope for. Notably there have been long periods of warm sunny days throughout Geographe and Margaret River punctuated by only brief local rain events. In the vineyard leaf plucking and removal have been essential

operations carried across most varieties and this has led to optimum ripeness conditions with very rare detection of diseases in the vineyard.
