

WINE NOTES

Peccavi 'Estate' Merlot 2019

Vinification and Maturation

After being hand picked in the early morning, this wine goes through the state-of-the-art Oscill Destemmer and is hand sorted at a meticulous quarter ton an hour. This wine is made from a combination of pump over in tanks and open top fermenters, where it is pumped over, and hand plunged every 6 hours around the clock for three weeks. The wine is then matured in 100% fine French oak, 60% new, sourced from the Saint-Emilion and Pomerol region, for 21 months.
