Parking and precinct operations

Precinct traffic management

Since the last meeting, we have implemented:

- **Geo Fencing for Ride Share Vehicles** – now in place for events with 20,000+ attendees. This:
 - Creates controlled pick-up areas
 - Improves traffic flows; and
 - Reduces crossover areas for pedestrians and vehicles.
- **Traffic Controllers on Moore Park Road** – deployed to actively manage taxi movements and pedestrian crossings, keeping traffic moving and minimise post-event congestion.
- **Two Point-to-Point Commissioners on Site** – one patrolling, one enforcing, ensuring taxis do not linger and block critical access areas. TfNSW are on call to redeploy resources if additional coverage is required.
- **Additional Transport Commanders on Site** – providing oversight and intervening early to clear congestion before it escalates.
- **Share Bike Management** – a dedicated manager now attends events to remove and reposition bikes, ensuring footpaths remain clear and safe for pedestrian use.
