Stay Healthy and Strong.

Complete a free bowel cancer screening test every 2 years, once you turn 50.

Screening for bowel cancer is simple, private, and free.

Regular screening can help detect the early signs of bowel cancer. If found early, over 90% of bowel cancers can be successfully treated. Keeping up to date with screening is an important way to stay healthy and strong for our families.

For more information, have a yarn with your health professional about making a bowel cancer screening test part of your regular check-up or visit:
