

NEW SERVICE ANNOUNCEMENT

Central Listing Service

Now Live

To continue its mission to support early career doctors, the Postgraduate Medical Council of Victoria has developed the Central Listing Service.

The Central Listing Service will allow Health Services to list all 2021 available advertised positions for doctors in training across the state of Victoria.

To access the service, please log in or create your account and click the Central Listing Service option from the drop down in the top navigation menu. We encourage you to provide feedback so that we can continue to improve the service. Desktop is the preferred method.
